Developing Learning Media Multimedia Interactive Based

Nur Kholis, Yuwono Indro Hatmojo, Sunaryo Soenarto, Djemari Mardapi

Abstract

This research aims to develop certain interactive learning media that can be used for improving the quality of Programmed Control Practice Course. The method used in this activity was Research and Development (R&D). The stages taken covered 3 stages such as (1) need analysis stage, (2) design stage, and (3) implementation and development stage. Based on the research results, it can be concluded that the demo of CD interactive learning media in programmed control practice course is feasible to be used as a learning media.

Keywords: *learning media, interactive multimedia, programmed control practice.*
